1) Number all pieces and panel - 33 pieces,

2) Take out cross length pieces first, from top first.

3) Take out wrap up pieces from top section's first.

4) Wrap the pieces very carefully - they can be slipping. Also the legs tend to break if you are not careful, so please make sure the legs are wrapped well.

Thank you for
all your help -
Sincerely
Nancy Dilling

a) (Be very careful with center panel piece.)

b) the bottom piece (X) ¹⁹ crosswise is hard to get out, so be sure all the previous pieces are out before you take the bottom piece out

c) Remember to check which way the cuts go before you pull a piece out - they alternate in each panel section.
